A Fresh Start With Our Children

Q1 2026 Impact Report | Child Foundation Australia

The start of a new year is a chance to see how we can stand alongside children for whom support is not just financial help, but a foundation for hope.

NotebookLM

The True Value is Continuity

During a period when many families in Iran faced anxious and difficult days, your support meant more than financial assistance. It was a sign that they had not been forgotten.

*"On the days when worry ran highest,
your continued support meant
peace of mind for children."*

NotebookLM

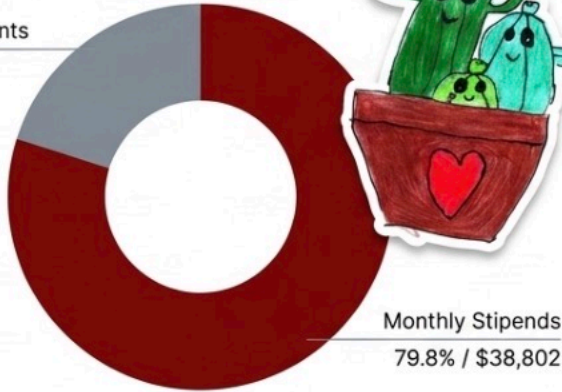

Q1 2026 At-A-Glance

Total Donations

\$46,641

Fund Allocation

One-time Payments
20.2% / \$7,839

Student Demographics

58% Girls

42% Boys

1,227 different paths. And one shared responsibility.

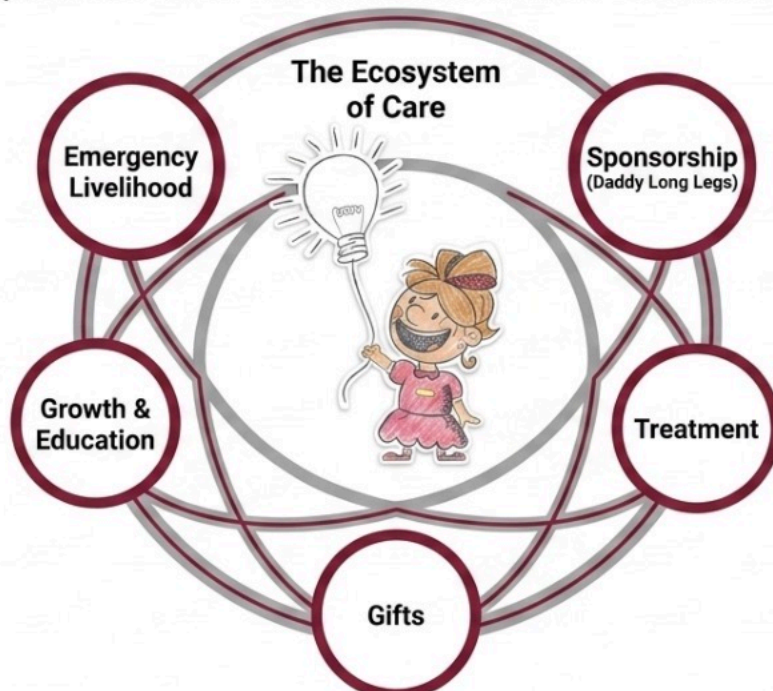

More Than A Number: Translating Action into Impact

Action vs. Meaning Matrix

ACTION	MEANING
Livelihood Essentials	<i>Reassuring a family they aren't walking a difficult road alone.</i>
Medical Interventions	<i>Restoring peace to a home so a child can focus on returning to life.</i>
Birthday & Occasion Gifts	<i>Proving a child's individual happiness and distinct interests matter.</i>
Educational Tools	<i>Building a child's belief in their own capabilities before they even learn the material.</i>

The Five Pillars of Targeted Intervention

How \$7,839 responded to urgent needs, reduced family anxiety, and provided close attention to individual circumstances.

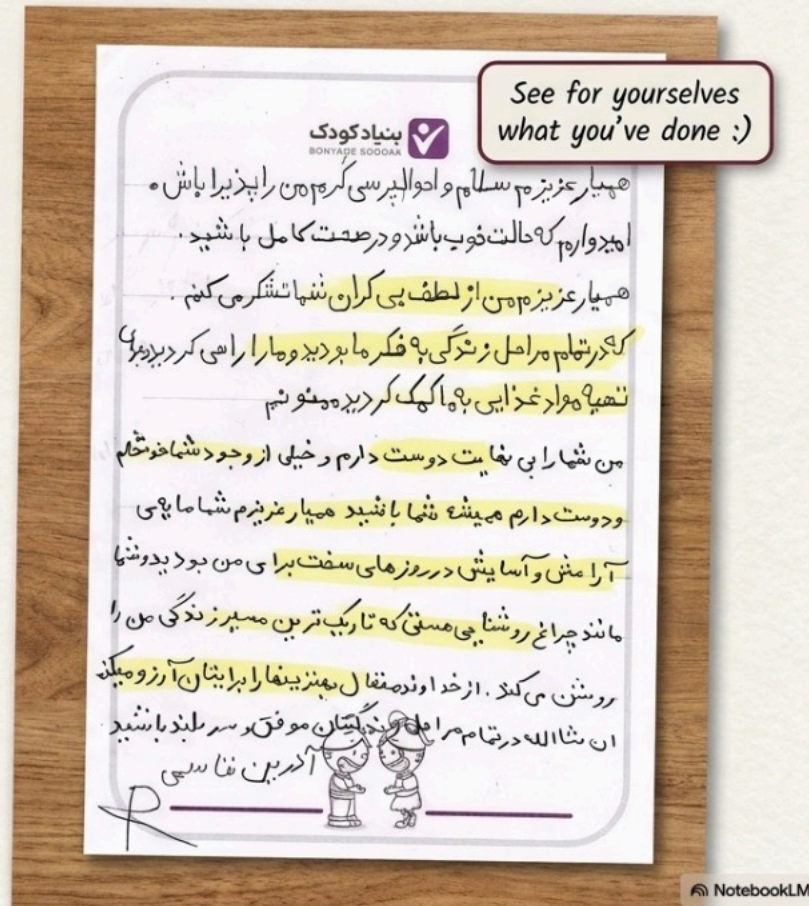

Seal One: The Livelihood Campaign

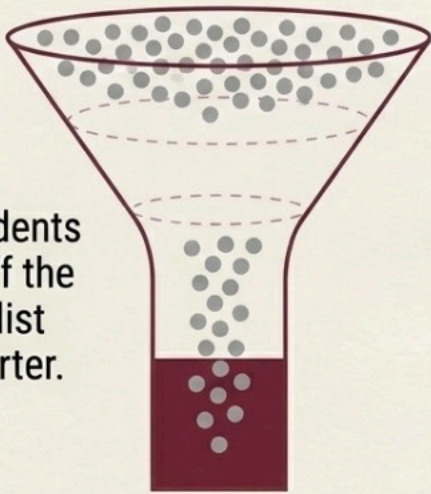

40 Families

provided with essential daily needs and groceries.

When uncertainty cast a shadow over many lives, basic needs became urgent. This was not just an emergency payment—it was a message of empathy, ensuring livelihood worries didn't become an even heavier burden.

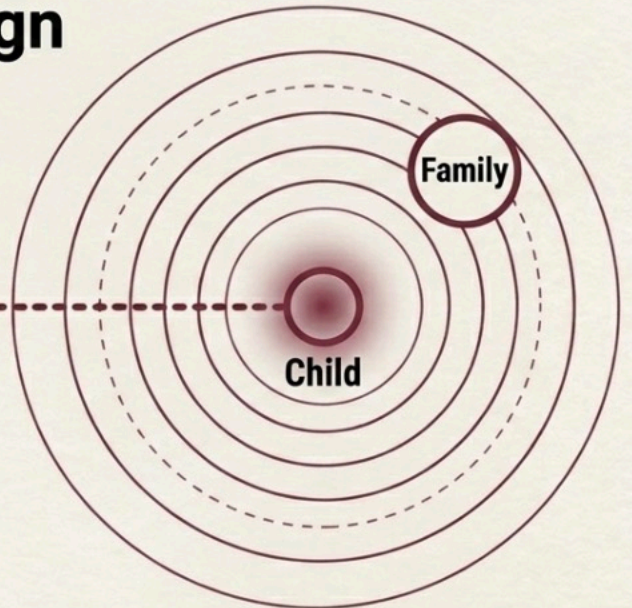

Seal Two: The 'Daddy Long Legs' Campaign

100 students came off the waiting list this quarter.

Sponsor

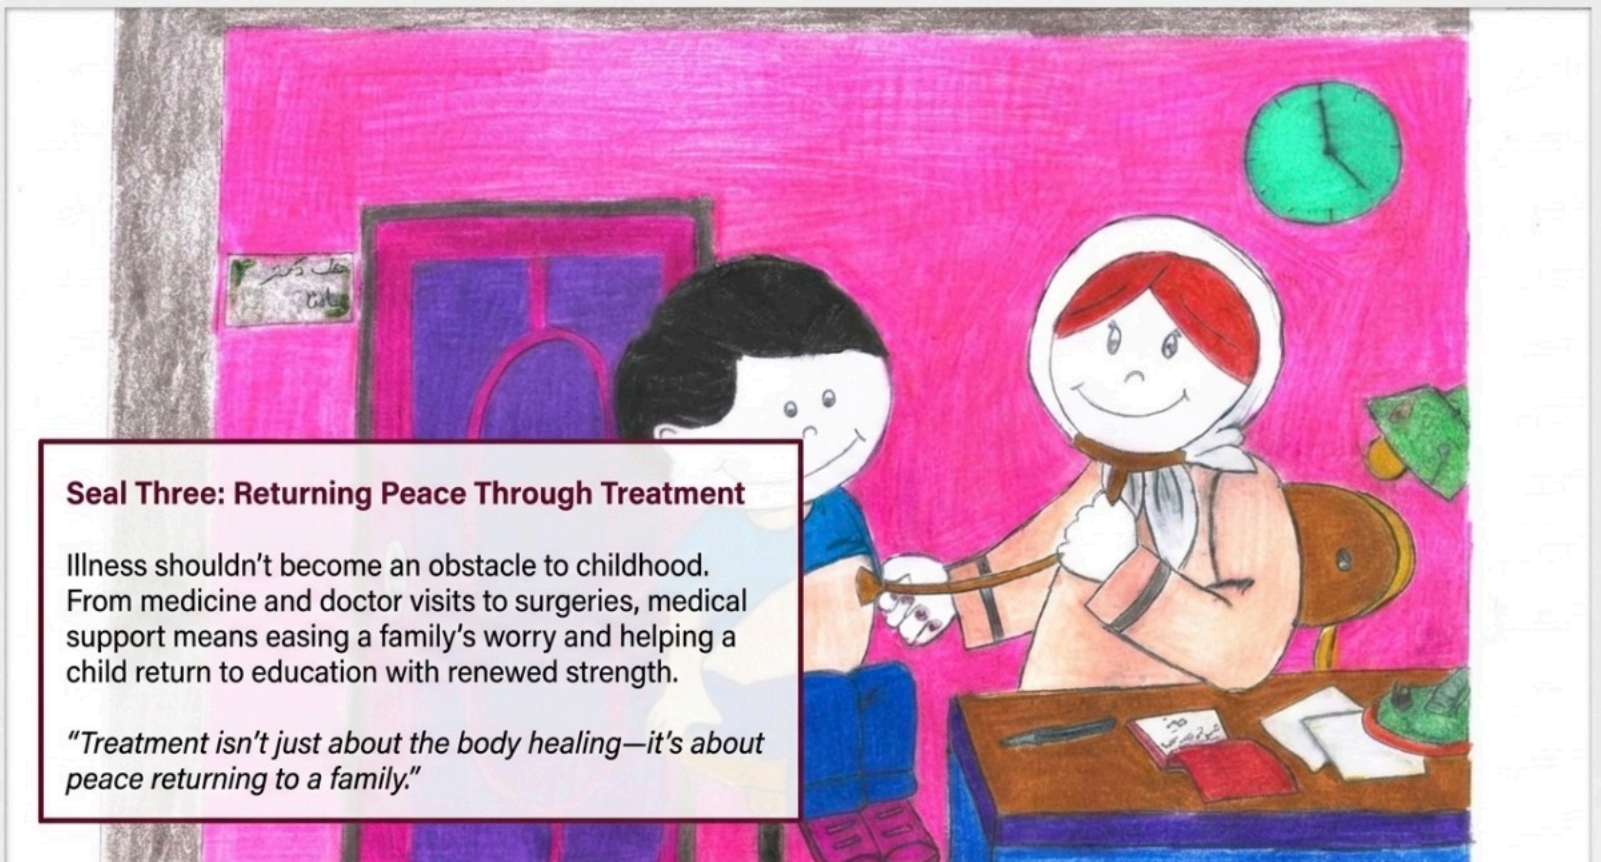

The biggest changes sometimes begin silently. A child may never know their sponsor's name, but the hope they get from them brightens their path and brings peace to their family.

Seal Three: Returning Peace Through Treatment

Illness shouldn't become an obstacle to childhood. From medicine and doctor visits to surgeries, medical support means easing a family's worry and helping a child return to education with renewed strength.

"Treatment isn't just about the body healing—it's about peace returning to a family."

Seal 4: Birthday & Occasion Gifts

While small in a financial report, matching gifts to a child's specific interests carries a human message: their happiness **happiness matters**.

Sometimes, **before education** gives a child knowledge, it brings their **belief** in their own **ability** to life.

Seal 5: Growth & Education

Providing tools and experiences that build confidence.

These Are the Sounds of Smiles

Impacts that cannot be seen in numbers alone.

Validation

Niloofar read her sponsor's reply out loud to her mother several times, smiling, unable to believe someone from so far away listened so closely.

Visibility

Yasin sent a photo of his school and waited to know if his sponsor had seen it. He just wanted to know someone cared about his future.

Security

Raha keeps her sponsor's letter next to her books so she is reminded every day she is not alone.

NotebookLM

Motivation

Amirali felt a surge of encouragement to study harder and pursue his dream of becoming a teacher.

Being Seen

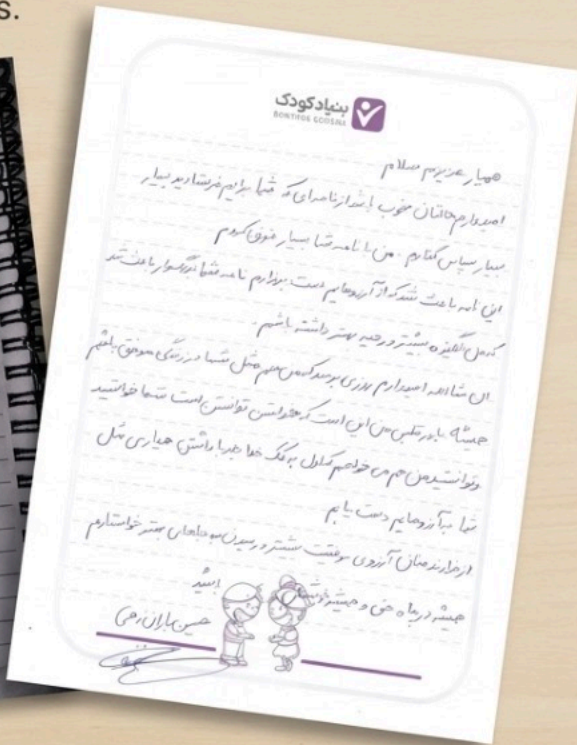

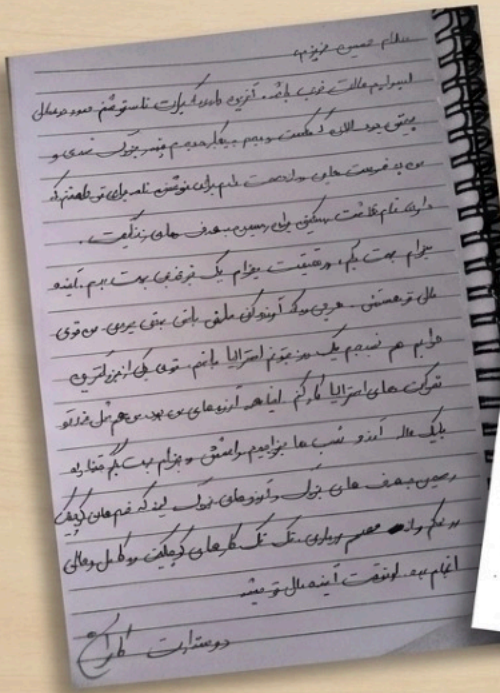

Setayesh felt that every time her name appeared in a letter, someone had seen her exactly as she is, and taken her seriously.

You are seen. Your voice is heard. And your future matters to us.

NotebookLM

Pure Love

The reason behind all these beautiful feelings.

Thank you for being the reason behind this.

The Equation of Care

“When a child is seen, they find the courage to dream.”
